THE PACIFIC

The Wherewithal. BY CHARLES SWAIN

A man may have wisdom and worth. And humor and wit at his call,

But what do these matter on earth. If he has not the wherewithal? His home may be circled with friends,

If he can only keep up the ball ; But friendship soon changes and ends,

If he has not the wherewithal. Then seek for the wherewithal-Make sure of the wherewithal.

For pleasure, like friendship, soon ends, If you have not the wherewithal.

The purse is the dial whose face shows hest where the sunlight doth fall :

He always is first in the race, Who is first with the wherewithal!

Some say that the high can be mean-Some hint that the great can be small ;

But triffes like these are not seen If blessed with the wherewithal! Then seek for the wherewithal-

Make sure of the wherewithal, For pleasure, like friendship, soon ends, If short of the wherewithal.

Love smiles on the casement that shows A picture within to enthrall;

When gold's in the heart of the rose, There's fone in the wherewithal! Yes, men may have wisdom and worth,

And humor and wit at their call, But what do those matter on earth, If they have not the wherewithal?

Then seek for the wherewithal-Make sure of the wherewithal, For pleasure, like friendship, soon ends, If short of the wherewithal !

That by laughing all grow fat,

while he's Young." The advice is good, for somebody is Camming who'll check him. Some people have a fashion of thinking that the truth is a species of dull tomahawk, and that its

efficiency is precisely proportioned to its power of mangling. "Marriage resembles a pair of shears," says Sidnev Smith; " so joined that they cannot be separated, often moving in opposite directions, yet always pun-

ishing any one who comes between them."

If you want to spend a fortune, publish a country newspaper; if you are fond of scandal, live in a boarding-house; if you have a taste for law, buy horses, and be sure you have a guarantee with each.

A DISSICULTY REMOVED .- The alarm felt among that a few visits and friendly attentions to a lady might be construct into an engagement, is subsiding under the following method of protection. Out West the bachelors provide themselves with cards duly

It strikes us that there is a " Id of wisdom" in the following quotation, brief as it is:

The man who is tied down by half a dozen blooming responsibilities and their mother, will make a higher and stronger flight than the bachelor, who, having nothing to keep him steady, is always flourdering in the mud. If you want to rise in the world tie yourself to somebody."

JERROLDIANA .- "That tune," said somebody in the company once, "always carries me away with it.
"Will nobody whistle it?" said Jerrold, instantly.

"A great deal of the Smith but very little of the Gold," was Jerrold's rithy and sarcistic comment. CONTENTMENT.-" Did you not say, Ellen, that Mr.

SINGULIA FREAR OF A SOMNAMBULIST.—Last week, a young man named Parker, residing at Pokeepsie, got out of his bed, dressed, and went to the depot, got on board of a freight train and rode as far as Debbs' Ferry before he awoke. The conductor seeing a person in the baggage car, inquired for his ticket but received no answer. Upon shaking him, Parker awoke and was astonished to find himself where he was. As a further proof, it was found that in dressing he had put both socks on one foot. The distance from Poughkeepsie to Debbs' Ferry is about any-five miles.

To the Farmer and Dealers in Agricultural Implements.

DLEASE READ.—Having erected a good shop, with facilities not heretofore possessed by any in this State for manufacturing Agricultural Implements, I begins to announce that I am now properly under way with that business. I woploy none but the best and most experienced mechanics, and work no material but the best. In this way I hope to promote the interest of the good mechanic, the interest of the farmer, the interest of our young and growing Agricultural State, and at the same time that interest which is foremost with all mankind—self. I have had twenty years' experience in the manufacturing business; I established the first shop, and made the first steel plow in the State of Wisconsin, in the dawn of her day of great egricultural improvement. I also made the first Resping and Moving machine, and the first steel plow over made in this State. Therefore, with my experience and a knowledge of the state of the country, (which are different from most others.) I had easily the country, (which are different from most others.) I had easily the good share of patronage from the furner, and all interested in this matter, and in the interest and development of the agricultural improvement of our State. I design, and investment way, the manufacturing of 1800 CAST STEEL CALIFORNIA DEEP TILLEE OR QUEEN OF THE WEST PLOWS.

The mould board, the landside and shear are manufactured of cast steel, making the plow run much lighter than any plow ever used in this country. Also,

GANG PLOWS, CULTIVATORS, HARROWS, PANN MILLS, 4c., 4c.

In addition to what I manufacture, I shall constantly be receiving implements from the best makers of the Bastern and Western States, amongst which are

600 CINCINNATI EAGLE STEEL & ROYBE PLOWS, a shipment of which has just arrived. These plows stand, point of true merit and worth, altogether higher than any other in the great agricultural State of Chic. ricase favor me with a call and see for yourself, and be convinced that I am publishing no humbug, but simply facts of they are, and that our young State can within itself shootly provide the farmer with implements inferior to none now in use.

Any article I manufacture will have all the latest improvements, and be finished in a workmanlike manner.

All kinds of agricultural implements and machines repaired on short notice, and in the best manner, and on reasonable terms.
